Homefront: Dining In

Some of the best local restaurants have gone all out to make sure the décor is as hot as the main course. You can take away more than just a doggie bag: See what these designers have cooked up, and find out how you can bring it home. –*C.M.*

WHAT WE LOVE: Clean, contemporary tableware at SPIRE, in Nine Zero hotel. 90 Tremont St., Boston 617-772-0202

WHY IT WORKS: It makes a statement without stealing the show. “We wanted a very contemporary yet timeless setting in which the food is the focus,” says Thomas Holtmann, the hotel’s director of operations. “Our glassware, flatware and dinnerware really showcase the cuisine, and everything goes together.”
